

# Welcome to Woldumar Nature Center

The Woldumar Nature Association is a non-profit organization formed in 1963 with the mission:

***to educate people about the natural environment.***

The Association and this private property exist to serve as an educational resource for area schools, families and individuals as we host field study, day-camp, and community programs. Woldumar is funded privately through the sale of memberships, modest program and service fees, and gifts from a community of generous donors.

The public may access this property during daylight hours to enjoy nature, exercise and relax.
